EDUCATION

Honours Bachelor of Science – Software Engineering Specialist Co-op

Sep 2020 – Aug 2025

University of Toronto – Scarborough, ON

- Entrance Scholarship (\$2000), Dean's List
- Coursework: Web Programming, Database Fundamentals, Data Structures and Algorithms, Operating Systems, Cybersecurity, Functional Programming, Software Design, Algorithm Design and Analysis

SKILLS

Languages: Python, C, Java, Javascript, Typescript, Haskell, Racket, HTML5/CSS, SQL

Frameworks: Next.js, React, MySQL, Tailwind, Bootstrap

Technologies: Node.js, Linux, MongoDB, Neo4J, Git, Docker, Google Cloud, Excel

EXPERIENCE

Software Engineer Co-op

Jan 2022 – Aug 2022

JDRF Electromag, Mississauga, ON

- Developed a **Python-based test automation tool**, improving QA efficiency and streamlining feature verification.
- Wrote and executed **unit tests** to ensure code correctness, helping supervisors catch bugs early in development.
- Collaborated in an **agile development team**, contributing to new features for a smart lighting system across multiple sprints.

Rev Captionist

Mar 2020 – Jul 2021

REV, Austin, TX (Remote)

- Created accurate, well-formatted captions by proofreading and applying grammar rules, contributing to consistently **positive customer reviews**.
- Researched client industries to ensure accurate technical vocabulary in captions.
- Maintained quality assurance by revising and correcting errors made by other editors.

PROJECTS

FEIN – Full-Stack Stock Trading App | ReactJS, Express, Typescript, NextJS

- Collaborated in a team of 2 to develop a **mock stock-trading** web application, and integrated financial APIs to broadcast stock prices every 1s for a seamless UI experience.
- Developed live chat with WebSockets, enabling **<150ms** message delivery between users.
- Developed secure, real-time stock trading UI and backend logic.

Calypso – Art Marketplace App | ReactJS, CSS, HTML

- Developed responsive React components and resolved **15+ critical UI bugs**, improving load times by **30%**.
- Contributed to backend fixes and Agile delivery, boosting sprint velocity by **20%**.
- Supported dynamic listings and smooth UX across **100+ artworks**.
